{The reader will kindly make allowance for the inartistic appearance of these tables,  
{the author has cut down the expense of printing this work something like \$100 thereby, and thus been able to publish it.}

0 022 008 893 5

In the spring of 1911 the writer obtained a copyright on the herewith

"The XXth Century Calendar", and submitted it to the consideration of II. Scientists and Financiers who were anxious

An examination of the above calendar will show that it possesses all these features, and also preserves the ancient and venerable order of the days of the week that has been in existence for nearly 6000 years, "according to the Scriptures".

In this Calendar "New Years-Day" always falls on Sunday Jan. 1<sup>st</sup>, Easter on Sunday April 15<sup>th</sup>, 4<sup>th</sup> of July and 25<sup>th</sup> of December always on Wednesday.

Provision is made at the end of every 7<sup>th</sup> year and 28<sup>th</sup> year for the difference in solar time by the observance of "A Week of Rest", and of "A Fortnight of Rest".

The writer has in his "A Synchronism of The Hebrew & The Julian Calendars." (day by day for 6000 years) Also "The Chronology of The Life of Jesus The Nazarene." They contain some startling scientific, and historical facts that ought to be known.
